

POINT 1

- 1) If “Modello_Descriz_Originale” contains “mod_stage” elements, use it to identify the combination of “Mod_Famiglia”, “Mod_Serie” “Mod_Stage”
- 2) in these case you have correctly identify “mod_stage” but NOT “Mod_Serie” (=> should be IV and not I)
- 3) it is useful to double check also with the limits of production start year and production end year
